Subject: Support for Agenda Item #47: Protect Our Communities and Environment from Antiquated Oil Approval St

CAUTION: If this email looks suspicious, DO NOT click. Forward to Spam.Manager@ventura.org

Dear Ventura County Supervisors,

Please take this important action to protect the lands. It's unfathomable that the ordinances are so antiquated. Thank you for doing what's best for the people of Ventura County and the precious wildlife and lands.

I'm writing in support of efforts to amend the County's Zoning Ordinances so that your Planning Division and the public will have better oversight over new oil wells and facilities.

In Ventura County, thousands of oil wells operate under antiquated permits, and more continue to be drilled without an evaluation of environmental impacts and little to no consideration of nearby natural resources and communities. Antiquated permits present a grave risk to the environment, our climate, precious water supplies, and public health.

All new wells in Ventura County should abide by the same modern standards. Oil companies must not be allowed to drill an unlimited number of wells, for an unlimited amount of time, and without an evaluation of impacts on public health and the environment.

Please vote to amend the Zoning Ordinance to ensure that new wells and facilities under antiquated permits are subject to environmental review and public notice and hearings.

Regards,
Marnie Northrop

Ojai, CA 93023
