**Subject:** Legacy permits and vested rights

I am writing this to state that I am opposed to formally changing the zoning ordinances which will ultimately cause the current permits to become discretionary permits. This will prove to be a costly impact on my family! My ancestors and I, and, hopefully, my descendants will be receiving the rewards of my ancestors prudent investments! Additionally, I am one of many mineral owners that will be negatively impacted by the changes being proposed!! Many of us are facing financial challenges, especially due to the current pandemic, with no real end of it in sight, I pray that the Ventura County government authorities will, please, not make any changes to this land's zoning ordinances or permits!

Thank you for your consideration!

Rita Robinson
