**Subject:** No to allowing Conditional Use Permits Ventura County

Dear Ventura County Board of Supervisors:

Please do not allow oil & gas operations to operate under out-dated Conditional Use Permits. We know the negative health and safety consequences of these operations. Because of damage to air, water, climate and human health, oil and gas needs stringent regulation based on current scientific knowledge. We urge the Ventura County Board of Supervisors to put in place all possible safeguards for the sake of those who live here.

Sincerely,

Robert E. Krause and Mary Adrienne Krause
