Dear Board,

I just learned of the potential loss of income based upon a decision this Board could make on November 10th. My three sisters and I inherited royalty rights from our father several years ago. We each do not make more than a couple of hundred dollars per month from royalties. It's not much, but we have become dependent upon it for survival. One sister is retired, the other two are part time teachers and don't have much income. I'm almost 70 and hope to one day retire. The COVID-19 pandemic has reduced the income of myself, my wife, and one of my sons who I help out financially due to needs of my grandchildren.

I'm not sure what the priorities of the Board are, but please consider the consequences of your decision for individuals who are not making much and are dependent on royalties to make it - especially during this economic disaster.

Thank you for your consideration

Harry Davis
