Comment to be read:

My comment was not read on Item 47. As a result, you did not get to learn that your live stream does not work for the many members of the public who use Chrome as their internet browser. Beyond this complete frustration with your lack of public access and process, you are now being goaded into taking further steps without transparency. You are not only ignoring vested rights but you are also being manipulated by Supervisor Bennett to ignore any examination of costs, science, and environmental impacts. Isn't it time to pull back and learn of these impacts before you blindly move further?

Thank you. Jane Usher
