Dear Ventura County Board of Supervisors,

I am writing on behalf of myself and other family members, Frances Jane Urbelz, William Douglass Stockton, and Joan Phyllis Fobes to express our deep concern over the local government of Ventura's proposed plan to change zoning ordinances which would result in changing the operating policies of the California Resources Corporation to produce oil and natural gas. By adopting such policies we, as mineral rights owners, will suffer huge losses. We ask that such measures not be taken at this time because such losses would impact our lives severely, and for one member especially it will be devastating. Thank you for your consideration and allowing us to express our concerns.

Would you please include my comments in the record for items 34 and 47? Thank you.

Sincerely,
Marijim Stockton Thoene
