

## Recommendations:

- ✓ Fill up car with gas in advance or pre-arrange transportation
- ✓ Have cell phones and other mobile devices charged and have portable chargers
- ✓ Have medications and emergency kits with you when you evacuate because you may need to stay in your vehicle because evacuation centers have limited capacity
- ✓ Have own water and food supply due to COVID concerns

**COVID, Evacuation, PSPS,  
and Extreme Heat**

“  
If you're going to have these  
continued heat waves, you're going  
to have more of these outages.”

Evaluation only.
