Re: Comments on Agenda Item No. 41:
Continued Public Hearing for the Sole Purpose of Considering
Certification of the 2040 General Plan Final Environmental
Impact Report and Associated Actions (PL17-0141)

Dear Chair Long and Board Members, Mr. Ward, Ms. Curtis:

We write on behalf of California Works Labor Management Cooperation Trust ("California Works") regarding the County of Ventura ("County") Board of Supervisors' ("Board") Agenda Item No. 41, *Continued Public Hearing for the Sole Purpose of Considering Certification of the 2040 General Plan Final Environmental Impact Report, Including Adoption of Related Findings and Documents Pursuant to the California Environmental Quality Act, Repeal Existing General Plan Except for the 2014-2021 Housing Element, and Approval and Adoption of the 2040 General Plan and 2040 General Plan Background Report (Planning Division Case Number PL17-0141)* (collectively, the "Project"), being considered at the September 15, 2020

4925-004j

September 14, 2020

Page 2

Board Hearing. These comments are submitted consistent with the Board's instructions for providing written public comments in advance of the hearing.¹

California Works is a non-profit organization formed by the State Building and Construction Trades Council, a council of labor unions representing over 450,000 California construction and industrial workers, including members of the Tri-County Building and Construction Trades, and companies that hire California union workers. California Works has been, and continues to be, strongly committed to workforce education, training and certification efforts that enable the quality workmanship necessary to ensure that industrial and other development is constructed and operates safely. California Works is also concerned with policies that protect public health and the environment, and which provide job opportunities for working families and disadvantaged communities in the region where the workers and their families live, work and recreate.

We continue to object to the County's proposed certification of the Final Environmental Impact Report ("FEIR"), including the proposed adoption of related findings and documents pursuant to the California Environmental Quality Act ("CEQA"),² proposed repeal of the existing General Plan, and proposed approval and adoption of the 2040 General Plan and accompanying background report. We also object to the County's decision to prohibit public comment at the September 15, 2020 Board Hearing. We incorporate by reference all written and oral comments submitted to the County objecting to the Project by any other commenting party, person or agency.³

¹ County of Ventura, Public Comments for Board of Supervisors' Meetings, <https://www.ventura.org/board-of-supervisors/agendas-documents-and-broadcasts/public-comments/> (last visited Aug. 31, 2020) ("If you wish to make a written comment on a specific agenda item by E-Mail or Mail, please submit your comment via email by 3:30 p.m. on the day prior to the Board Meeting.").

² Pub. Resources Code §§ 21000 *et seq.*; 14 Cal. Code Regs. §§ 15000 *et seq.*

³ This comment letter is submitted to exhaust remedies under administrative law principles, Gov. Code § 65009(b) and Pub. Resources Code § 21177, concerning the Project and incorporates by this reference all written and oral comments submitted on the Project by any commenting party or agency. It is well-established that any party, as California Works does here, who participate in the administrative process can assert all factual and legal issues raised by anyone. *See Citizens for Open Government v. City of Lodi* (2006) 144 Cal.App.4th 865, 875. We reserve the right to supplement these comments at later proceedings on the Project. Gov. Code § 65009(b); Pub. Resources Code § 21177(a); *Bakersfield Citizens for Local Control v. Bakersfield* (2004) 124 Cal. App. 4th 1184, 1199-1203; *see Galante Vineyards v. Monterey Water Dist.* (1997) 60 Cal. App. 4th 1109, 1121. 4925-004j

California Works submitted written comments to the County on August 31, 2020, and oral comments at the September 1, 2020 Board Hearing, which concurred with prior objections raised by other commenters and identified additional deficiencies in the FEIR which require recirculation under CEQA and a further public hearing.⁴ Specifically, the County failed to analyze the wildfire mitigation measures and alternatives raised by the California Board of Forestry and Fire Protection in a recirculated EIR.⁵ The County also failed to analyze potential mitigation measures related to energy use in existing buildings, vehicle use and travel behavior, landfill waste, and agriculture uses that could further reduce greenhouse gas impacts before declaring them significant and unavoidable.⁶ These comments are not addressed in the September 15 Board Staff Report, and the CEQA violations we identified have not been remedied.

The Board also made substantial changes to the 2040 General Plan and FEIR after the close of public comment at the September 1, 2020 hearing which require recirculation under CEQA and additional public comment under the Brown Act.⁷ However, the Agenda for the September 15, 2020 Board Hearing states that the Board is not permitting any further public comment on these items,⁸ and the Staff Report recommends Project approval without recirculation.⁹ These actions would constitute two separate violations of law.

⁴ Letter to Chair Long and Board Members, Board of Supervisors, Ventura County from Andrew J. Graf, Adams Broadwell Joseph & Cardozo re: Comments on Agenda Item No. 39: Public Hearing to Consider Certification of the 2040 General Plan Final Environmental Impact Report and Associated Actions (Aug. 31, 2020).

⁵ *Id.* at pp. 3-4.

⁸ Board of Supervisors, County of Ventura, Regular Meeting Agenda (Sept. 15, 2020) p. 10 (*hereinafter* "September 15 Meeting Agenda"), *available at* https://ventura.granicus.com/DocumentViewer.php?file=ventura_254dcf9b98d9741872c0ea64f761ebe7.pdf&view=1 ("PUBLIC COMMENT TO THE HEARING IS CLOSED; ONLY FINAL PROJECT DOCUMENTS ARE BEING CONSIDERED FOR APPROVAL") (emphasis in original).

⁹ Letter to Board of Supervisors, County of Ventura from Dave Ward, Planning Director, Ventura County Planning Division re: Continued Public Hearing for the Sole Purpose of Considering Certification of the 2040 General Plan Final Environmental Impact Report, Including Adoption of Related Findings and Documents Pursuant to the California Environmental Quality Act, Repeal of Existing General Plan Except for the 2014-2021 Housing Element, Approval and Adoption of the 4925-004j

First, the County would violate CEQA because the changes it made to the 2040 General Plan and FEIR constitute significant new information requiring recirculation of the FEIR. Second, the County would violate the Brown Act because it made substantial changes to the 2040 General Plan and FEIR at the September 1, 2020 Board Hearing, but it is not affording the public an opportunity to provide comments on the changes during the continued public hearing. The Board must correct these deficiencies before approving the 2040 General Plan and FEIR.

A. THE COUNTY MUST RECIRCULATE THE FEIR BECAUSE IT ADDED SIGNIFICANT NEW INFORMATION TO THE 2040 GENERAL PLAN

An EIR requires recirculation when significant new information is added after the public comment period but before certification.¹⁰ Significant new information includes: (1) new significant environmental impacts, (2) a substantial increase in the severity of an environmental impact unless new mitigation measures are adopted that reduce the impact to a level of insignificance, and (3) to address new, feasible alternatives and mitigation measures which are considerably different from others previously analyzed and would clearly lessen the significant environmental impacts of the project.¹¹

At the September 1, 2020 Board Hearing, the County made numerous substantive changes to the proposed 2040 General Plan without analyzing the potentially significant environmental impacts resulting from these changes under CEQA. Specifically, the Board added new language, new policies, new programs, and a new maps to the 2040 General Plan and made significant revisions to existing policies, programs, and revised existing land use maps.¹² In addition, the Board made several substantive changes to the FEIR, including amendments to mitigation measures.¹³ Each of the changes constitute changes to the 2040 General Plan Project made after the close of the CEQA public comment period. Individually and collectively, these changes constitute significant new information requiring

2040 General Plan and 2040 General Plan Background Report (Planning Division Case Number PL17-0141); All Supervisorial Districts (Sept. 15, 2020) p. 3, *available at* <http://bosagenda.countyofventura.org/sirepub/cache/2/abocgi55yuapvxegkp3hvn4v/154297809142020122012347.PDF>.

¹⁰ 14 Cal. Code Regs. § 15088.5(a)

¹¹ *Ibid.*

¹² September 1 Summary Minutes at pp. 13-18.

¹³ *Ibid.*

4925-004j

September 14, 2020

Page 5

recirculation because the County modified the underlying Project to without analyzing the environmental impacts or mitigation measures resulting from these changes in the EIR.

In order to comply with CEQA, the County must revise and recirculate the Draft EIR to analyze the impacts, mitigation measures, and potential alternatives to the proposed changes in 2040 General Plan and FEIR that were adopted by the Board after the close of the CEQA public comment period.

B. FAILURE TO PERMIT PUBLIC COMMENT ON AGENDA ITEM NO. 41 WOULD VIOLATE THE BROWN ACT

At the September 1, 2020 Board Hearing, the Board approved a motion to, among other things, close the public testimony on the Project and tentatively approve the recommended actions on the 2040 General Plan, FEIR and related documents. However, the Board also directed staff to make 12 specific additions and revisions to these documents, which the Board described in the motion but which were not before the Board at the time the motion was made.¹⁴ The September 15 Staff Report explains that, following the September 1 Board Hearing, County staff revised various policies and programs in the draft 2040 General Plan.¹⁵

Despite making significant revisions to the 2040 General Plan and FEIR at the September 1 Board Hearing, the Board intends to consider the 2040 General Plan, FEIR, and related documents for approval at the September 15 Board Hearing without receiving any public comment.¹⁶ The Board's refusal to permit public comment would constitute a violation of the Brown Act.

¹⁴ *Ibid.*

¹⁵ September 15 Staff Report, p. 3.

¹⁶ September 15 Meeting Agenda at p. 10 (**"PUBLIC COMMENT TO THE HEARING IS CLOSED; ONLY FINAL PROJECT DOCUMENTS ARE BEING CONSIDERED FOR APPROVAL."**) (emphasis in original); *see also* email from Zoom to Andrew J. Graf, Adams Broadwell Joseph & Cardozo re: Your registration for webinar Board of Supervisors' Meeting for September 15, 2020 at 8:30 a.m. has been denied (Sept. 14, 2020) ("Unfortunately, you requested to speak on item 41 regarding the continued hearing of the 2040 General Plan. As stated on the agenda, this specific item is continued from September 1, 2020 and 'Public Comment to the Hearing is Closed; Only Final Project Documents are being considered for approval'. As such, we are unable to grant your request to speak.") (attached as **Exhibit 1**).

4925-004j

Under the Brown Act, public comment is required for all agendized items.¹⁷ There are generally only two exceptions to this rule: (1) if the agenda item has been continued from a prior hearing by no more than 5 days,¹⁸ or (2) ***“on any item that has already been considered by a committee, composed exclusively of members of the legislative body, at a public meeting wherein all interested members of the public were afforded the opportunity to address the committee on the item, before or during the committee's consideration of the item, unless the item has been substantially changed since the committee heard the item, as determined by the legislative body.”***¹⁹

In this case, the first exception does not apply because the Board continued the public hearing on the 2040 General Plan Update by more than 5 days.²⁰ The second exception also does not apply because the Board made substantial changes to the 2040 General Plan and FEIR after public comment closed. As discussed above, the Board added new language, policies, programs, and maps to the 2040 General Plan and made significant revisions to existing policies, programs, and maps after the close of the public comment period.²¹ In addition, the Board made several substantive changes to the FEIR, including amendments to mitigation measures.²²

Based on the changes to the 2040 General Plan and the FEIR, as reflected in Board's September 1 motion,²³ and the fact that the Board did not have the final approval documents before it at the September 1 hearing, “the item has been substantially changed” necessitating further public comment under Brown Act.²⁴

C. CONCLUSION

We urge the Board not to certify the 2040 General Plan FEIR, not to adopt the related findings and documents, pursuant to CEQA, not to repeal the existing General Plan and not to approve and adopt the 2040 General Plan and 2040

¹⁷ Gov. Code § 54954.3(a)

General Plan Background Report. Instead, we urge the Board to remove this item from consideration at the September 15, 2020 Board Hearing and to direct staff to (1) correct the numerous deficiencies in the FEIR identified in the record, (2) recirculate for public review a revised draft EIR that complies with CEQA, (3) schedule additional opportunities for public engagement which provide the public with legally required opportunities for public comment and adequate time to evaluate the revised 2040 General Plan and all related materials, and (4) assess the effect of the General Plan update on job opportunities for working families and disadvantaged communities.

Thank you for your consideration of these comments.

Sincerely,

A handwritten signature in black ink, appearing to read "Andrew J. Graf".

Dear Supervisor District 3 Kelly Long,

Dear Supervisors,

I am very concerned with the General Plan that you are considering on September 15th. The message of the General Plan is clear: you don't want to support the blue collar families that have made Ventura County work for generations. Ventura County has a proud history of being home to industries that support working families, from fishing to ag to heavy industry to mineral and oil extraction. By enacting a General Plan that seeks to kill these industries, you are sending a message that working families and the blue collar industries that employ them are no longer welcome in Ventura County. On behalf of my own family and the hundreds of thousands of others relying on these industries, I am asking you to VOTE NO on the General Plan on September 15th and vote YES for a county wide project labor agreement.

Regards,
Douglas Kern

Attachments: RE: Request NBVC (PH, Laguna Peak, PM Tanks) GIS Perimeter Shape-files; smime.p7s; ATT00001.txt; ATT00002.htm

Good afternoon Chair Long, Honorable Supervisors, and CEO Mike Powers:

For the record, my name is Kendall Lousen, and I am the Community Planning Liaison Officer with Naval Base Ventura County (NBVC).

As you know, the Navy has a large operational footprint across the County of Ventura. NBVC is in fact comprised of many non-contiguous properties, and sadly, the various NBVC property boundaries have never been properly illustrated in the Ventura County General Plan or Land Use Maps. We are pleased to see the Board's motion filed Sept. 01, called attention for staff to address NBVC's comments before Sept. 15, by incorporating our GIS shape-files to ensure Navy's property boundaries are depicted in the General Plan Update for NBVC's Point Mugu, Port Hueneme, San Nicolas Island, Camarillo Housing, and Laguna Peak/Reservoir Tract. *NBVC GIS files provided to County staff Aug. 27th (attached email).

However, in review of the Final Documents contained for Agenda Items No. 41 - we are disappointed to find the Navy's general plan comments and GIS shape-files of NBVC property boundaries (described above), were not addressed by staff - as requested and not documented as part of the Board's motion for staff to do by Sept. 15. To implement compatible land uses across our military-civilian community, NBVC property boundaries throughout VC2040 General Plan should be corrected to illustrate land use designations; for enhanced policy context for JLUS and AICUZ implementation of the General Plan 2040 vision.

Given the short-timing that staff had to revise the VC2040 GPU contained as Final Documents for Agenda Item No. 41, we can also understand that perhaps there was not sufficient time to address our comments to ensure NBVC's GIS shape-files get incorporated as directed by the Board. Thus, we strongly urge County staff incorporate the Navy's comments and GIS shape-files of NBVC's property boundaries (documented from the Sept. 01 Boards motion), before the VC2040 GPU is approved and certified by the Board of Supervisors today.

Again, thank you for your time, support, and your partnership between the County of Ventura and NBVC. Should you have questions for NBVC, I can be reached at Kendall.p.lousen@navy.mil, thank you.

--

Importance: High

Shelley and Susan,

We understand the County is finalizing all planning contents of the comprehensive Ventura County 2040 General Plan Update (VC2040 GPU) before it goes to the Board of Supervisors next Tuesday. NBVC is pleased to see County Planning Staff incorporated several land use military compatibility strategies and policy recommendations from NBVC's Joint Land Use Study (JLUS) and Air Installations Compatible Use Zones (AICUZ) Study to be carried forth in the VC2040 General Plan Update. Furthermore, we kindly request staff to address NBVC's comments and recommendations regarding VC2040 GPU Figure 2-4 and Figure 2-5 (by incorporating NBVC GIS layers provided to staff this afternoon) to augment military-community compatibility programs described throughout the VC2040 GPU. Please find/review the attached PDF, thank you.

V/r,

Kendall Lousen (Kenny)

Subject: [Non-DoD Source] RE: Request NBVC (PH, Laguna Peak, PM Tanks) GIS Perimeter Shape-files

Hi Kendall,

Thank you for providing the shapefiles depicting all of the federally-owned land associated with NBVC. There isn't time before Tuesday's hearing to redo the General Plan Figures. I suggest you modify the email you sent me this morning requesting that the County correct the NBVC boundaries in the final General Plan. Please cite all of the Figures that you believe should be updated to reflect the correct boundaries and indicate that shapefiles with those boundaries have been provided to the County. Send your email to me and to Susan.Curtis@ventura.org

Please let me know if you have any questions. Thank you for your input!

To: Lepper, Justin E CIV USN NAVFAC SW SAN CA (USA) <justin.lepper@navy.mil>

Subject: Request NBVC (PH, Laguna Peak, PM Tanks) GIS Perimeter Shape-files

Importance: High

Hi Justin,

I called and left you a voicemail this afternoon to see if you have "ready to go" GIS shape-files that illustrate the Port Hueneme Base, Laguna Peak Complex, and PM Tanks-Reservoir Tract GIS property/polygon that we can share with County of Ventura Planning Division? It is imperative the VC2040 General Plan Contents are illustrated correctly in that NBVC Laguna Peak Complex and PM Tanks Reservoir Tract are also "federal property" and is part of NBVC Point Mugu and San Nicolas Island. Ventura County Planning needs to ensure NBVC is consistently delineated throughout all the GPU Figures and Land Use Map Exhibits contained in the VC2040 General Plan are correct and represents our mission

operations for military-compatibility; all before it goes to the Board of Supervisors for adoption – come **September 1, 2020**.

Request GIS Support: Request GIS Shape-files to be sent to Ms. Shelley Sussman <Shelley.Sussman@ventura.org> at Ventura County Planning Division/GIS to update Figures contained in the C2040 General Plan Update.

Call my cell if you have questions or need clarification.

Dear Supervisor District 3 Kelly Long,

Dear Supervisors,

I am very concerned with the General Plan that you are considering on September 15th. The message of the General Plan is clear: you don't want to support the blue collar families that have made Ventura County work for generations. Ventura County has a proud history of being home to industries that support working families, from fishing to ag to heavy industry to mineral and oil extraction. By enacting a General Plan that seeks to kill these industries, you are sending a message that working families and the blue collar industries that employ them are no longer welcome in Ventura County. On behalf of my own family and the hundreds of thousands of others relying on these industries, I am asking you to VOTE NO on the General Plan on September 15th and vote YES for a county wide project labor agreement.

Regards,
Lacey Major

Dear Supervisor District 1 Steve Bennett,

Dear Supervisors,

I am very concerned with the General Plan that you are considering on September 15th. The message of the General Plan is clear: you don't want to support the blue collar families that have made Ventura County work for generations. Ventura County has a proud history of being home to industries that support working families, from fishing to ag to heavy industry to mineral and oil extraction. By enacting a General Plan that seeks to kill these industries, you are sending a message that working families and the blue collar industries that employ them are no longer welcome in Ventura County. On behalf of my own family and the hundreds of thousands of others relying on these industries, I am asking you to VOTE NO on the General Plan on September 15th and vote YES for a county wide project labor agreement.

Regards,
PATRICK GALLAGHER

The message of the General Plan is clear: you don't want to support the blue collar families that have made Ventura County work for generations. Ventura County has a proud history of being home to industries that support working families, from fishing to ag to heavy industry to mineral and oil extraction. By enacting a General Plan that seeks to kill these industries, you are sending a message that working families and the blue collar industries that employ them are no longer welcome in Ventura County. On behalf of my own family and the hundreds of thousands of others relying on these industries, I am asking you to VOTE NO on the General Plan on September 15th and vote YES for a county wide project labor agreement.

Regards,
Samuel Graham

Dear Supervisor District 1 Steve Bennett,

Dear Supervisors,

I am very concerned with the General Plan that you are considering on September 15th. The message of the General Plan is clear: you don't want to support the blue collar families that have made Ventura County work for generations. Ventura County has a proud history of being home to industries that support working families, from fishing to ag to heavy industry to mineral and oil extraction. By enacting a General Plan that seeks to kill these industries, you are sending a message that working families and the blue collar industries that employ them are no longer welcome in Ventura County. On behalf of my own family and the hundreds of thousands of others relying on these industries, I am asking you to VOTE NO on the General Plan on September 15th and vote YES for a county wide project labor agreement.

Regards,
Andrew Wilson

The message of the General Plan is clear: you don't want to support the blue collar families that have made Ventura County work for generations. Ventura County has a proud history of being home to industries that support working families, from fishing to ag to heavy industry to mineral and oil extraction. By enacting a General Plan that seeks to kill these industries, you are sending a message that working families and the blue collar industries that employ them are no longer welcome in Ventura County. On behalf of my own family and the hundreds of thousands of others relying on these industries, I am asking you to VOTE NO on the General Plan on September 15th and vote YES for a county wide project labor agreement.

Regards,
Jose Garcia
