Dear County Board of Supervisors:

As a resident of the County, I would like to express my strongest concerns and opposition to any consideration of a County Covid 19 Passport in any form whatsoever. It goes against the basic freedoms and medical privacy that are inherent in the US Constitution which you are sworn to uphold.

My rights to travel and move about freely shall not be hindered or subject to a vaccination requirement or proof therein! Please dismiss this outrageous

idea in its entirety and defend the freedoms that make America, American; the land of the free.

Thank you.

Sincerely,

James Greenfield
