Subject: Agenda#8 Read aloud at the meeting

To The Ventura County Board of Supervisors,

I am a mother of a daughter who had pathogenic priming from the flu vaccine, which makes her not a candidate for the Covid Vaccine. I am also a wife of a husband who takes a biologic medicine for Crohn's disease, who's doctor does not recommend the Covid vaccine for him. These are two instances of citizens, out of millions, that can't take a vaccine or medicine out of necessity. I never imagined our rights as humans to move about freely or to work in the county or state you were born and raised in would be jeopardized due to the threat of having to prove you are vaccinated. Every persons medical choices should be personal and private. I hope you would take this in consideration and please pass a resolution opposing any kind of vaccine passport/ show your papers system.

Thank you,
Jennifer Ward
