**Subject:** PLEASE READ AT MEETING - Agenda ITEM #8 Vaccine Passports

It's hard to believe that Elected Officials know so little about the California Government Codes. #12926 (q) protects the rights of individuals not to participate in practices that violate one's religious beliefs. #37100 states that no legislative body can pass or enforce a law that violates the laws of the state. #24171 states that individuals have the right to determine what is done to their bodies. Treating those of us who choose to forego the vaccine till more is known about long term side effects should not be discriminated against or treated as pariahs by our politicians or our local businesses. Forcing us to undergo experimental procedures or be denied the ability to take advantage of facilities, privileges or services is immoral, unethical and unlawful. I therefore demand that you state publicly your intention to vote **against** any form of vaccine passport for Ventura County residents that would restrict their ability to fully access all the services they are entitled to.
