Subject: Agenda item #8 - Covid Update

We have been residents of Ventura County for over 45 years, always voted for those we felt represented us, and have only had to respond to City, School, County issues a few times, this is one of those times.

A covid passport would create legislation that will be discriminatory by its very nature, limit our freedoms, and coerce citizens into taking vaccines or any other medical treatment. It is my private health information and I do not feel the need for anyone to know my choices, history or previous care.

Our BOS are elected officials responsible for protecting their constituents, I and many others request that you "AFFIRM, IN WRITING, THROUGH THIS RESOLUTION, THAT THE PEOPLE OF VENTURA COUNTY WILL NOT NEED PROOF OF VACCINATION TO DO ANYTHING."

Sincerely,

Dennis & Marilyn Murdoch
