Hello,

I am writing to you as a concerned citizen of Ventura County. On behalf of others living in your jurisdiction, I am asking that, through a resolution, your citizens will not be required to show proof of vaccination in order to live the way we deserve to. Our freedom to live should not depend on the choices of a selected few elitists who are claiming to do what is "best for the people" without truly listening to the concerns of the people. Also consider those with medical conditions who may be inept to receive any form of vaccine due to allergies or other medical conditions, who would be forced into isolation for the rest of their days if any form of vaccination requirement is passed. We all deserve to live free like our leaders always intended us to.

Thank you.
