**Subject:** Comment to be made apart of Public Record Ventura County BOS Meeting Agenda Item #8

**CAUTION:** If this email looks suspicious, DO NOT click. Forward to Spam.Manager@ventura.org

Note to the Clerk: Please make this letter apart of the Public Record and distribute to each of the Ventura County Board of Supervisors, Dr. Levin & Mr. Vargas prior to the BOS meeting on May 18, 2021.

To our Board of Supervisors:

We, the people, respectfully and intentionally remind you that you are elected representatives, put into office at our good pleasure to represent our best interests and to defend or constitutional freedoms and civil liberties. The below items must be acknowledged and acted upon by our Board of Supervisors immediately. Our civil rights, human dignity, and right to choose what happens to our own bodies is being violated on a massive scale in this county and will not stand. We will choose what happens to our own bodies and under the clearly stated Informed Consent standards listed on the website of the FDA <https://www.fda.gov/regulatory-information/search-fda-guidance-documents/guide-informed-consent> and clearly codified into international human rights law in the Nuremberg Code of 1947 <http://www.cirp.org/library/ethics/nuremberg/>, will assess the data and science for ourselves, consult with our own individually selected healthcare professionals, and will then choose our own path forward as sovereign and free beings. You may not violate fundamental ethics, the American Consitution, the CA Constitution, Civil Rights & Statutory Law, and International Human Rights Law in your role as Supervisors in this county, and we urge you in the strongest terms to reject completely any and all contracts and efforts seeking to require proof of vaccination for individuals to function, buy and sell within society, and/or to conduct business of all kinds. This is so fundamentally discriminatory in nature that it should go without saying.

We have the freedom and the right to make our own medical choices. Please know that we will not go along with allowing for or instituting any kind of vaccine passport system whether it is officially approved through the county or simply enabled to be utilized by private establishments in violations of our free and equal access as protected under law.

Unequivocally end these human rights violations now and allow us to return to functioning as free and sovereign citizens, perfectly capable of making our own best health and life decisions.

And please remember the following points of law to which you will be held accountable:

1. Digital vaccine passports of any kind are discriminatory against those based on their medical status, religious beliefs and more. Requiring a vaccine as a condition to participate in society is unlawful, immoral, unethical and unthinkable.
2. Private businesses are NOT above the law and they are PROHIBITED from implementing any such verification program as a condition of doing business.
3. We are demanding that this board:
  - a. Publicly state its opposition to the vaccine passport;
  - b. Cancel the OTHENA contract which was unlawfully approved; and
  - c. Prohibit businesses from requiring a vaccine verification to get service
4. California Government Code 12926 (q) protects one's religious liberty and practice, including the ability to NOT PARTICIPATE in practices that violate one's sincerely held religious beliefs
5. California Government Code 37100 states that NO county, municipality, or legislative body may pass or enforce a law that violates the laws of this state or the laws of the United States.
6. It is unlawful, unethical, immoral and unthinkable to state that private businesses can require a vaccine passport or vaccine verification as a condition for conducting business.

California Civil Code 51 states that:

All persons within the jurisdiction of this state are free and equal, and no matter what their sex, race, color, religion, ancestry, national origin, disability, medical condition, genetic information, marital status, sexual orientation, citizenship, primary language, or immigration status are entitled to the full and equal accommodations, advantages, facilities, privileges, or services in all business establishments of every kind whatsoever.

7. California Health and Safety code 101080 states that a local health emergency can only be called where there is an ‘IMMINENT AND PROXIMATE THREAT of the INTRODUCTION of a contagious disease...” and this local health emergency EXPIRES AFTER SEVEN DAYS. The local health emergency was called in Feb of 2020; this is 15 months later. THERE IS NO EMERGENCY! There is no imminent and proximate threat of an introduction of a contagious disease.

8. Requiring a Covid vaccine (which is a medical experiment) as a condition to participate in society is UNLAWFUL COERCION according to CA law.

24170: This is the Protection of Human Subjects in Medical Experimentation Act

24171: The Legislature hereby finds and declares ... the right of individuals to determine what is done to their own bodies.

24172 (j) This is the “experimental subject’s bill of rights,” and states that individuals

Be given the opportunity to decide to consent or not to consent to a medical experiment without the intervention of any element of force, fraud, deceit, duress, coercion, or undue influence on the subject’s decision.

Sincerely,  
Charissa Proctor
