Hello Board of Supervisors and others,

I am so perplexed that you posted names and emails of citizens regarding the replies and responses from citizens about the January 6th events in DC. I have sent emails to various elected public figures and some send back emails asking for my phone and address as if that has anything to do with my concerns and comments. Why would you publish a concerned involved citizens private information, emails, names???? I would prefer that you look at our input and responses and suggestions rather than nit pick about where we live etc.

Also...I want action taken on the "NO VACCINE" resolution that would free up citizens from the ridiculous PRESSURE to get a vaccine in order to fight off a virus that has the same low death rate as the common flu. MY BODY MY CHOICE!! I refuse to take a vaccine that has not been thoroughly tested on NON-HUMANS. No one can force anyone yo take that vaccine and it should never be an excuse to exclude or force people into the fear based biases creeping into our society. The CDC knows the death statistics are way lower than they ever expected. Take action NOW for the citizens who live here!!
