**Subject:** Public Comment on digital vaccination tool up for public meeting in Ventura County Tuesday May 18 at 8:30 a.m.

Many people are now resisting their constitutional rights being further abridged by the County BOS, such as the digital vaccination tool up for comment this Tuesday. As a retired attorney residing in this county, I can see clear abridgment of our constitutional rights by this proposed measure. I would ask the BOS to abandon the furtherance of this unconstitutional provision in the interests of harmony of your constituency which is already mounting recall campaigns. The State is backing down on its prior edicts which abridged constitutional rights, and the County BOS should follow suit, instead of advancing travel and behavior restrictions which even the ACLU questions..
