Boardmembers,

I am extremely disappointed that the board decided to expose the names of individuals that emailed Linda Parks about the Jan 6th Resolution. It seems that Mrs Parks is seeking revenge against the citizens that disagree with her rushed resolution in January and may be trying to punish them by having the “cancel culture” go after any of her dissenters. In this day and age when the “cancel culture” can come after people for exercising their constitutional rights, that seems to be a serious disregard for her constituents safety. I am asking the board to look into an ethics violation on this issue. If ethics even mean anything anymore?

I would also ask the board to move to protect citizens from illegal vaccine mandates by public and private institutions. This issue was discussed previously and needs to be addressed.
