THE VACCINE PASSPORT: AN INSTRUMENT OF SOCIAL CONTROL. THE RISE OF "UTILITARIAN EXTREMISM",

Let's set aside the fact the COVID Vaccine (as admitted by the CDC) does not even meet the definition of a vaccine because it does not prevent transmission or infection. But for purposes of this commentary, we will "play the foolish game". But what we won't do, is let this let this malevolent idea of vaccine passports go unchallenged—particularly digital!!

It is the government's job to protect the Constitutional rights of all Americans. Allowing or encouraging businesses to discriminate by creating a two-tier society where unvaccinated people are barred from participating in civic society is unconstitutional on its face; and those who do so should be deprived of their business licenses.

Moreover, proof of vaccination against COVID-19 will not ensure safety. It won't even remotely promote it, as the so-called vaccines are designed to merely reduce symptoms of the infection. They don't make anyone immune.

So, the only reason for a [vaccine passport](#) is control-related , but the proponents are trying to convince people otherwise. The U.S. Federal government recognizes it cannot legally mandate vaccine passports as that is medical discrimination. So, they are depending on private businesses to push through this strategic subversion of Constitutional rights—illegally!

Utilitarianism, a discredited pseudo-ethic that has repeatedly been used to justify horrific human rights abuses, is now being increasingly promoted. It is based on a mathematical equation that some individuals can be sacrificed for the greater good of the majority. This obsession is *where risks to the individual are ignored and the idea of self-determination and personal choice is ridiculed*.

The latest data on [COVID-19 vaccine side effects](#) suggest governments are already operating under this horrific utilitarian ideology. As of the end of April, more than 11,000 COVID vaccine deaths and 450,000 injuries have been logged in both the E.U's and the U.S's vaccine injury reporting system. (And as we all know, only roughly 1% are reported so the real number is much greater, so you do the math!!) Yet all these injuries and deaths are simply ignored; and the call for everyone to get their experimental jab continues unabated — all while bashing vaccine hesitancy as a mental illness, intellectual deficit, or even any act of domestic terrorism?!

In a utilitarian system, you cease to be an individual with rights to autonomous decision-making and become a tool of the government, and that's exactly what we're seeing. Government has decided that some people — quite a few people, actually — are expendable, which is the exact opposite of what they're telling us publicly.

You must drop the plan to contract with Big Tech fiends: no digital vaccine passport- period— full stop! Moreover, you must approve a resolution prohibiting stores and businesses to require ANY vaccine passport—as that is discrimination and unconstitutional. And remember, you work for the People, not the corporations!!
