Subject: Digital vaccine passports

Good Morning Board of Supervisors,

Any kind of vaccine passport is a very bad idea. First of all, it infringes on our medical health privacy rights. Secondly, it violates our US constitutional rights to privacy. Thirdly, why should someone else force us to get a vaccine that has not been out long enough to be tested for safety and validity. What if someone is already immune? Why would they need to be vaccinated again? This idea of a "digital vaccine passport," is a slippery slope and must not be allowed.

Thank you so much for doing the right thing here and do not allow this in Ventura County.

Sincerely,

Concerned Voting Citizens of Ventura County, Residents of Camarillo:
