Subject: READ AT MEETING ITEM #9

Please read at meeting, item #9:

I am completely disgusted the Board of Supervisors would be so very irresponsible and reckless to release names from emails sent to Linda Parks regarding the January 6 Resolution. This was not an authorized action and the Board should be held accountable for such reckless action. Linda Parks is displaying actions similar to that of a Marxist Nazi and should be jailed, period. Anyone that supports her actions needs to be held accountable.

A resolution against mandating vaccines needs to be in place to protect citizens from private and public companies trying to force illegal vaccination on Ventura County residents. These vaccines are not vaccines, they are experimental gene altering injections as well as a crime against humanity. If elected officials do not protect the people from this illegal and deadly plot, they will be considered part of the crime. The Board needs to do its job and protect citizens from this madness and protect our Constitutional rights.
