Subject: RE: Vaccine passports

To All Concerned:

This is adds another violation of a constituents privacy! Government control has already gone beyond its limits. People are awakening, fed up with the “nanny state.”

Where has political and media attention been regarding multitudes of other illnesses, accidents, homicides, suicides, and other horrific events that have taken or affected people’s lives in some way? The daily focus reported verbally, visually and scripted in various ways, has been COVID, COVID COVID! ENOUGH!

The Vaccine Passports are as unnecessary as are the misinformed news reports of inaccurate numbers of deaths and cases. Stop this ludicrous draconian policy effort!

Livid in Northridge,

B.L. Celello
