Subject: My body my choice

I am writing this letter in regards to a potential push for the Covid vaccine to be required. This is wrong and against every bit of freedom/rights we have as human beings who live in this country. Our freedom and privacy must be protected and therefore we should not be coerced by businesses to show vaccination cards or passports. "Showing papers" and digital passports are abusive and unnecessary. According to Ventura County Recovers website the Covid spread, hospitalizations, and deaths are minimal and no longer a crisis in the county. Please respect our freedom, privacy, and free will choices. And for goodness sakes, please take masks off of our kids. It's abusive and causing long term effects to their wellbeing and growth.
