**Subject:** READ ALOUD AT MEETING AGENDA #9

> PLEASE STOP VACCINE MANDATES!!!

>

> We the people demand that the board pass a resolution opposing ANY kind of passport system. We need a vaccine resolution to protect our county from private and public companies in forcing illegal vaccine mandates for participation or entry! Please affirm IN WRITING through this resolution, that The people of Ventura county will not need proof of vaccination to do anything. Your word will be proof to us that this will be honored IF it is in writing and we are able to view it.

>

> Medical procedures of any kind should be between a patient and their doctor and not have to be revealed to anyone. Also certain medications are not good for every person and can cause severe reactions . . . Even death. Since I am Jewish, I am opposed to any vaccine mandate that is also like my ancestors in Nazi Germany who were required to wear a yellow star showing that they were Jewish.
