Subject: Vaccine passports

As to whom it may concern,

I am writing this email to oppose the requirement of a vaccine passport in Ventura County. It is unconstitutional and therefore against the law for somebody to take any type of drug or medication including a vaccine against their will. It is also discrimination to tell somebody they can or cannot go into a business or into a public area due to their decision to not take a vaccine. If Ventura county decides to require passports I will put forth every effort to make sure every elected official is recalled and every hired official is fired.

Sincerely,
Joy Woelfel
