Subject: READ AT MEETING - ITEM #9 - Disappointed in BOS -

Just when I thought the Board of Supervisors had sunk as far as they could...I heard about yet another insidious, vindictive, retaliatory action against Ventura County residents. I am appalled that the Board felt it was O.K. to post personal information about residents, who had taken the time to reach out to you regarding your biased, inaccurate Resolution concerning the January 6th events at the Capitol. I believe your actions violated the confidentiality that people expect from the Board in expressing concerns and grievances they feel are important. Many people already feel disenfranchised by the current political stance on "free speech". What you did makes trusting you to do the right thing - more difficult than ever. Shame on you!
