I strongly oppose any form of a test or vaccine passport, which includes proof of vaccination.

It is clear that masks are nothing more than a holding place for proof of vaccine.
We have been suffocated for over one year, literally and figuratively speaking, by your egregious mask orders.
Enough.

May it be stated on the record that vaccine manufacturers have zero liability for adverse events, injury, and death.

All of the Covid vaccines are considered **experimental**;
They have **not** been approved by the FDA, but *authorized* for use under the emergency use authorization.
The trials are still pending: Pfizer's safety trial ends in 2023. Moderna's in 2022.

It would be negligent, discriminatory, and oppressive to require **any form** of proof of vaccination for access to grocery stores, restaurants, sporting events, etc.

We are already witnessing the segregation of the vaccinated vs unvaccinated. This needs to end, NOW.

I am asking you all to oppose all forms of a health pass for your County, no matter which euphemism you may give for it.

We demand that via a written resolution, that you will affirm that the people of Ventura county will never need proof of vaccination to do anything.

Thank you,

Kathryn S.
