To the Ventura County Board of Supervisors;

I oppose any requests, requirements or recommendations of usage for any experimental medical interventions including but not limited to vaccine, biologics, and injections of molecular devices now in the currently pushed covid injections.

I oppose the discriminatory hate crimes initiated by the false rhetoric that “people without dangerous and deadly chemical injections are dirty or contagious.”

Do not encourage separation policies, creating an “immunity caste system.”

Encouraging businesses to discriminate against people based on their medical choices is unacceptable.

Dr. Madeline Altman, DC
Ventura Country Resident
