Subject: Oppose vaccine passports

Hello Ashley,

Will the entire BOS see all the emails we send or are you the only person seeing our messages and replying?

I have heard that tomorrow, Tuesday May 18, the board of supervisors will vote on these passports. I do not consent to this being tracked and segregated by those who get the shots and those who do not. We are free Americans to live without these rules. You were put in office by we the people and need to listen to the people.

This is like China communism and we will not stand loosing our freedoms.

Thank you
