Hello,

I am asking the board to not require, nor encourage businesses to require a vaccine passport. The risk to benefit ratio is not favorable. The CDC has recently admitted that the risk of Covid has been over exaggerated. There is not sufficient justification to take a vaccine that appears to have killed more people than the virus. There are also treatment options available now. People should not be punished or discriminated against for not wanting to take a risk with their lives.

Best regards,

Suzanne
