Re: Opposition to Proposed Vaccine Passports in Ventura County

I want to strongly condemn the idea of a digital, surveillance-capability passport. This is totally undemocratic and suggests an application of becoming totalitarian control.

I want to remind Ventura County Officials that this Covid vaccine, either Pfizer or Moderna or Johnson and Johnson, is experimental. We have no long term studies. We already have over 4,434 reported deaths from Covid vaccines, as of May 13th, 2021, plus thousands of adverse reactions, according to VAERS.

Those who choose not to vaccine must not be marginalized nor unduly pressured. Please know the Nuremberg Rule forbids forced vaccines/medications, most certainly novel vaccines such as mRNA.

Thank you,
Donna Dearborn
