Subject: Vaccine passport

I'm sending you this email to let you know that I oppose the vaccine passport.

These experimental vaccines are not safe and have killed more people in the last few months than we have ever seen in the history of vaccines combined and will continue to do so as we have no idea at this time the effects of the vaccine in years to come. Already people are seeing that there are some metal particles in the vaccine with magnets sticking to the skin in the vaccinated area and not just there arm but other areas as well. This is not normal.

So I oppose the vaccine passport.

Thank you,

Karen Shane
