**To:** ClerkoftheBoard  
**Subject:** Proof of vaccination

To whom it my concern:

In reference to item #9 on the agenda, proof of vaccination card to enter stores, I strongly disagree with this notion.

This is a violation of our rights. We have the right of choice in this country to choose whether or not we will get vaccinated.  
We have the right to choose.

What about those who had COVID-19 and are fearful of the shot having a reverse reaction to their health. They should not be forced to get a shot.

Additionally, this is against HIPPA regulations. Right of privacy.

This country was born of freedom of choice.  
Let's not forget what we stand for in this country! Freedom of choice. Right to privacy.

No, to proof of vaccination cards to enter stores.

Sincerely,

Kristin Hatfield
