Subject: Public Comment on VC Climate Emergency Council

Dear VC Board of Supervisors and VC Staff,

Thank you for developing the Ventura County Climate Action Plan and establishing the Climate Emergency Council (CEC). Given our climate crisis, the work of the CEC and County staff is vital to taking prompt action on reducing GHG emissions.

I believe the following actions are important to the successful implementation of the VC Climate Action Plan:

- 1) Budget for the needs of the CEC and County staff to implement the Climate Action Plan (CAP)
- 2) Incorporate the CAP actionable measures into the County staff's work plans and performance measures.
- 3) VC County staff should be in communication with and coordinating their CAP work with VC Cities.
- 4) Focus CEC and VC staff efforts on identifying what CAP actions can result in measurable data.
- 5) Prioritize effective CAP actions that result in the greatest reduction of GHG

Thank you for making climate change a priority. Urgent action is needed now.

Respectfully,

David Gilbertson
Camarillo
