Subject: Redistricting

Dear Supervisors:

I live in Newbury Park and support "Community Map Version 2" for redistricting. This map is the result of collaborative efforts of some 15 local groups and feels like a good step toward much needed representative democracy. I believe this is an important way to engage communities in the struggles we face for a livable, thriving Ventura County, especially with climate change in the future.

Thank you for your careful consideration of this option.

Sincerely,
Barbara Leighton
