October 19, 2021 - Board Direction

All future draft redistricting maps must:

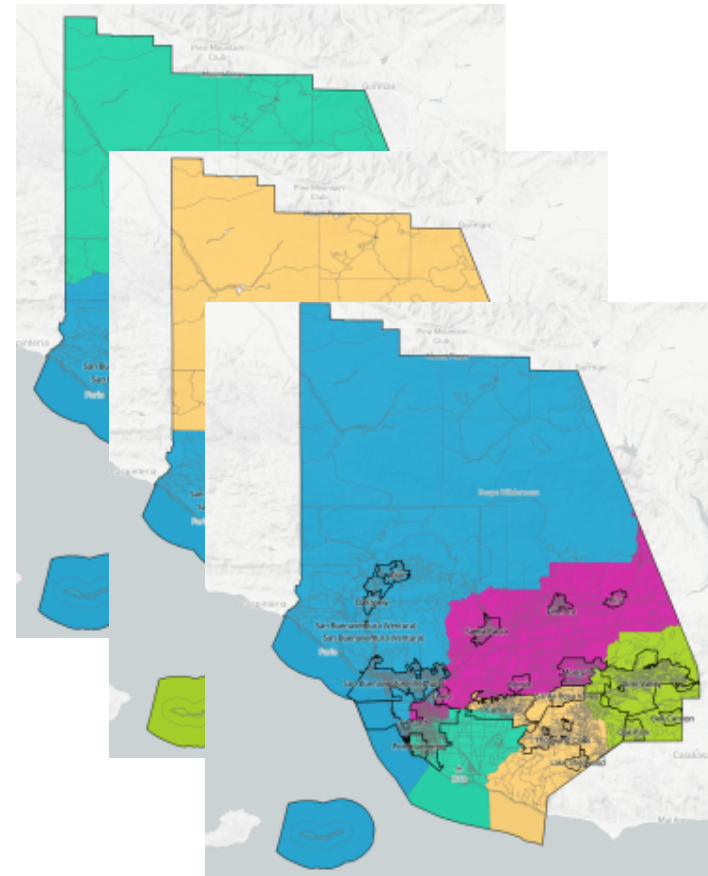

- Include two majority-minority (Latino/Latinx) districts; and
- Keep cities whole to the greatest extent possible.

October 19, 2021 - Board Discussion

To the extent possible, future draft redistricting maps should:

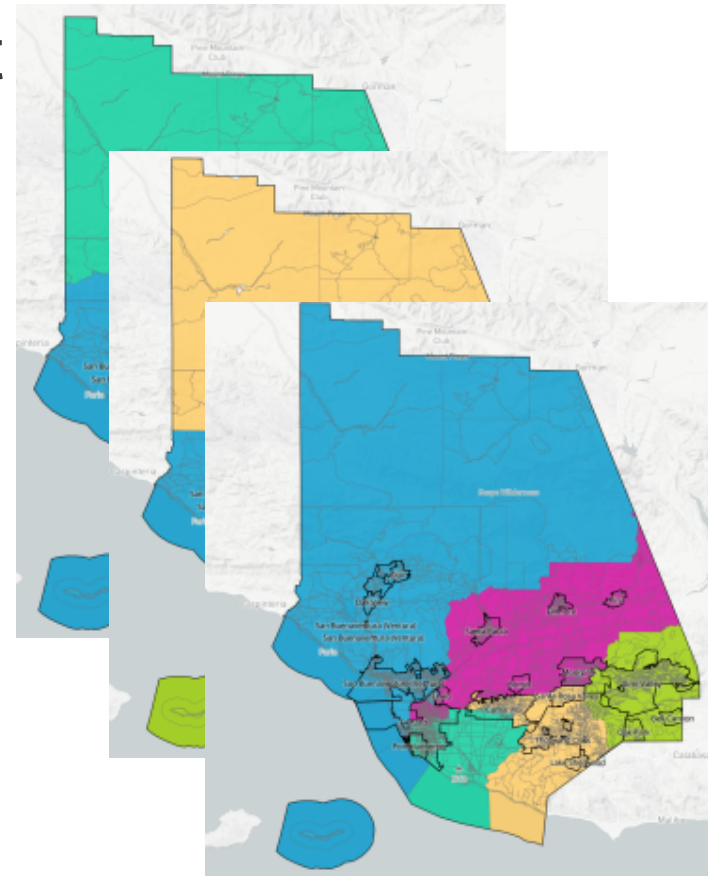

- Keep Moorpark within the same district as Simi Valley.
- Keep Saticoy within the same district as Ventura.
- Keep the Ojai Valley within the same district as Ventura.

October 19, 2021 - Board Discussion

To the extent possible, future draft redistricting maps should:

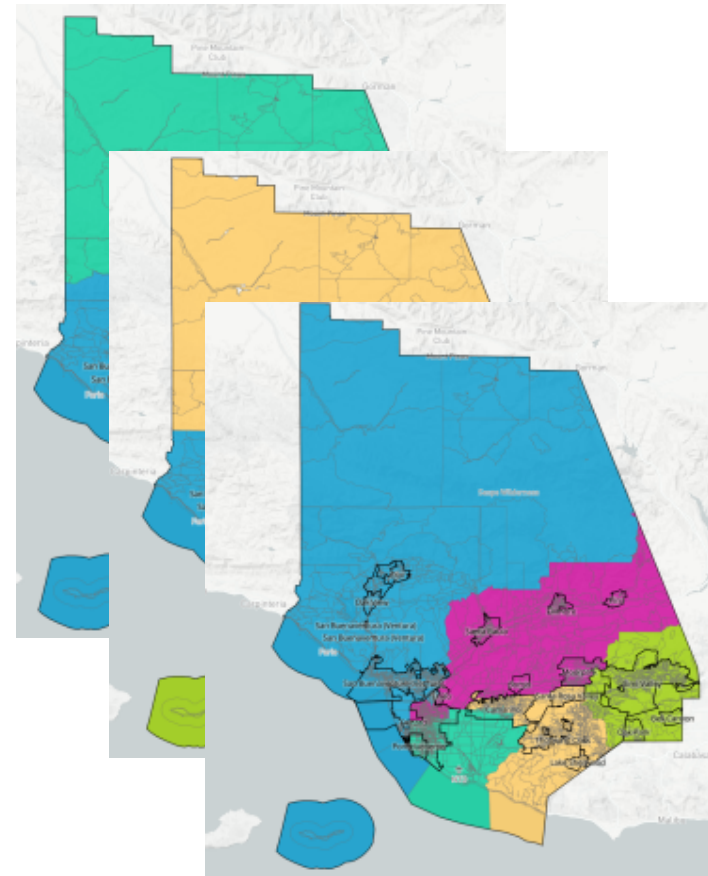

- Include the Channel Islands, the Port and the Naval bases within the same district.
- Keep the Santa Monica Mountains within the same district as Thousand Oaks.

October 19, 2021 - Board Discussion

To the extent possible, future draft redistricting maps should:

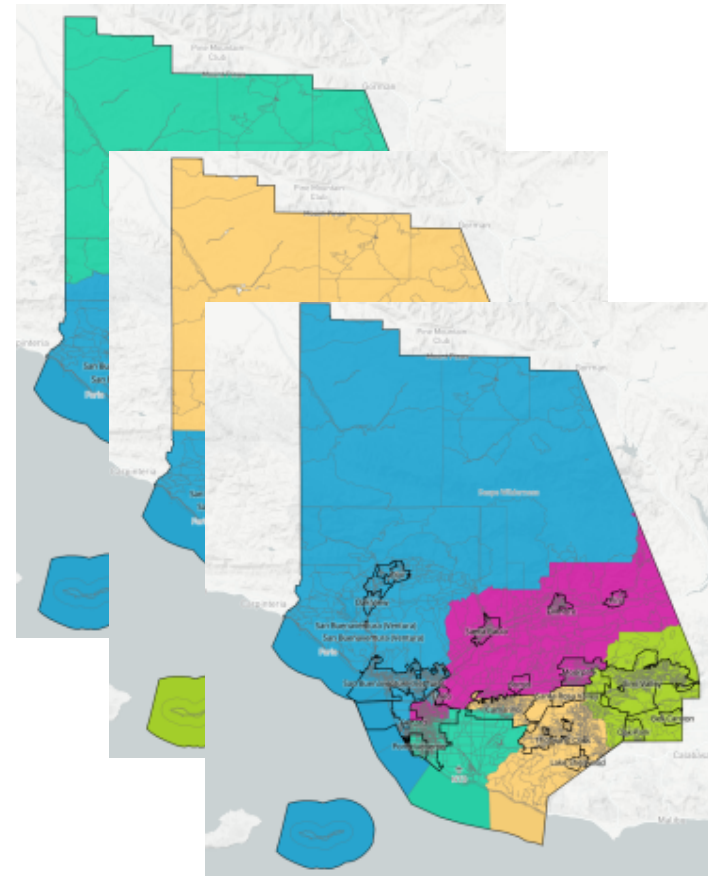

- Keep agricultural areas within the same district.
- Keep the north coast communities within the same district as Ventura.

October 19, 2021 - Board Discussion

To the extent possible, future draft redistricting maps should:

- Keep Camarillo Airport and Camarillo City Hall within the same district.
- Keep the City of Port Hueneme within the same district as the Port of Hueneme.

COUNTY *of* VENTURA

The Constitution and Federal Law

The final Board of Supervisor's District Plan must comply with the Constitution, Federal Law, State Law, and any applicable local ordinances.

The 14th Amendment of the US Constitution must be complied with in creating district plans with adherence to **equal representation**

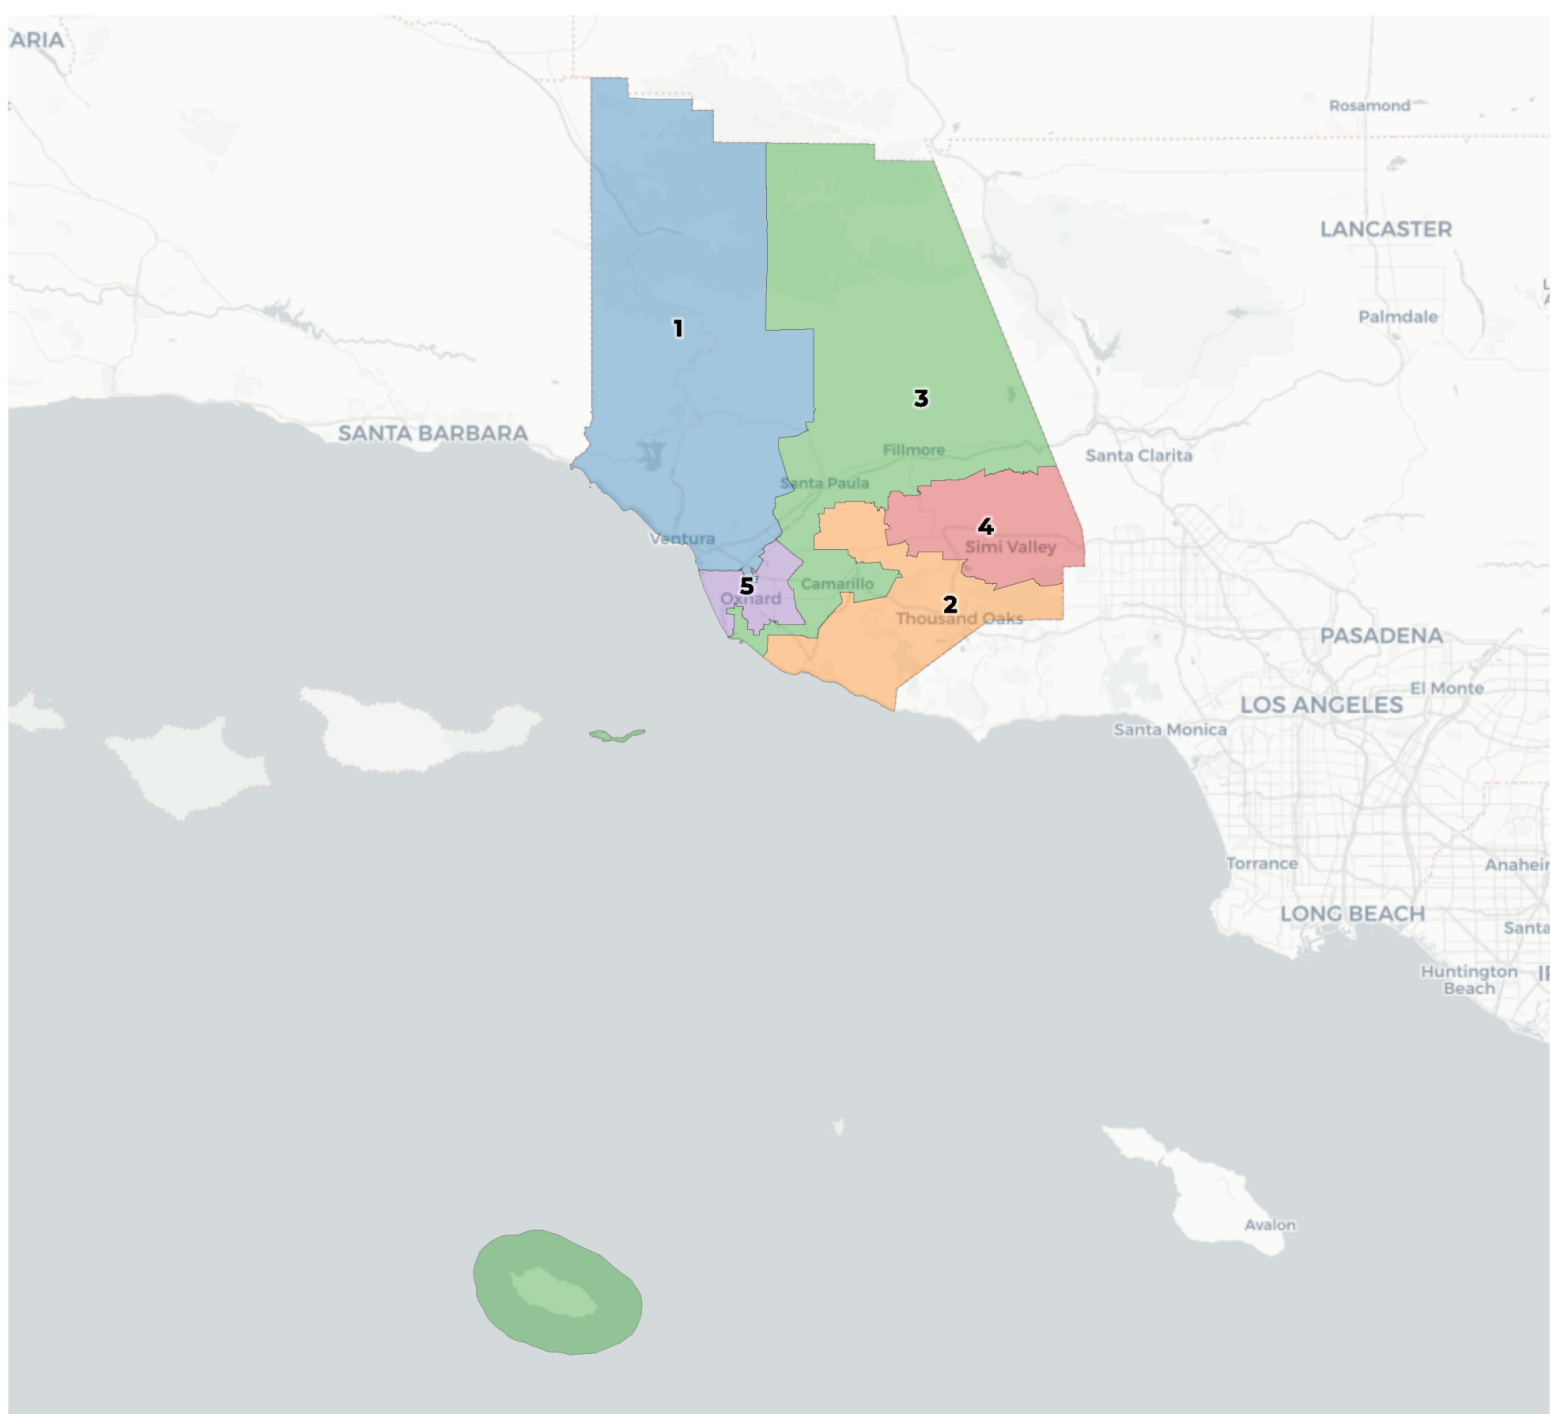

Section 2 of the Voting Rights Act must be complied with in creating district plans and its **prohibition against racial disenfranchisement**

Traditional Redistricting Principles

Complying with the Fair Maps Act

The Fair Maps Act passed by the Legislature mandates a set of criteria we must follow when drawing district plans.

- Relatively equal size - people, not citizens
- Contiguous – districts should not hop/jump
- Maintain “*communities of interest*”
- Follow city and census designated place boundaries
- Keep districts compact – appearance/function

Calculating Total Deviation in DistrictR

DistrictR is built to provide public mapping options for the entire nation. It is NOT built solely for California redistricting purposes.

DistrictR identifies the Maximum (Max.) population deviation of the plan. It does NOT identify the total deviation of the plan.

Calculating Total Deviation in DistrictR

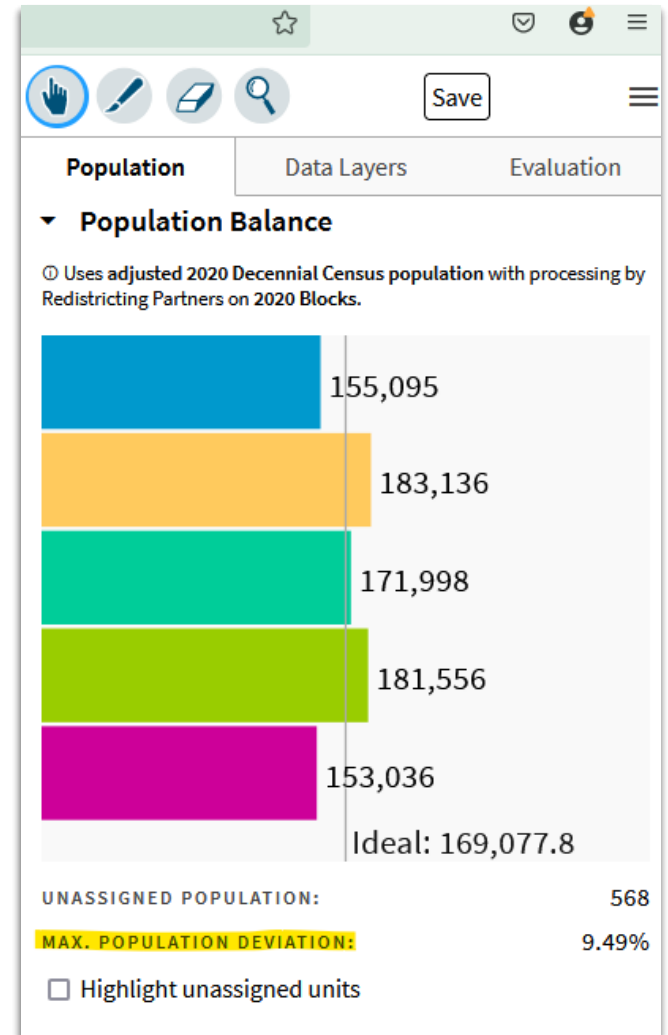

To Calculate the Total Deviation, you must take the largest district by population (Yellow @ 183,136) and subtract the population from the smallest district (Magenta @ 153,036) to get the total population deviation of the plan.

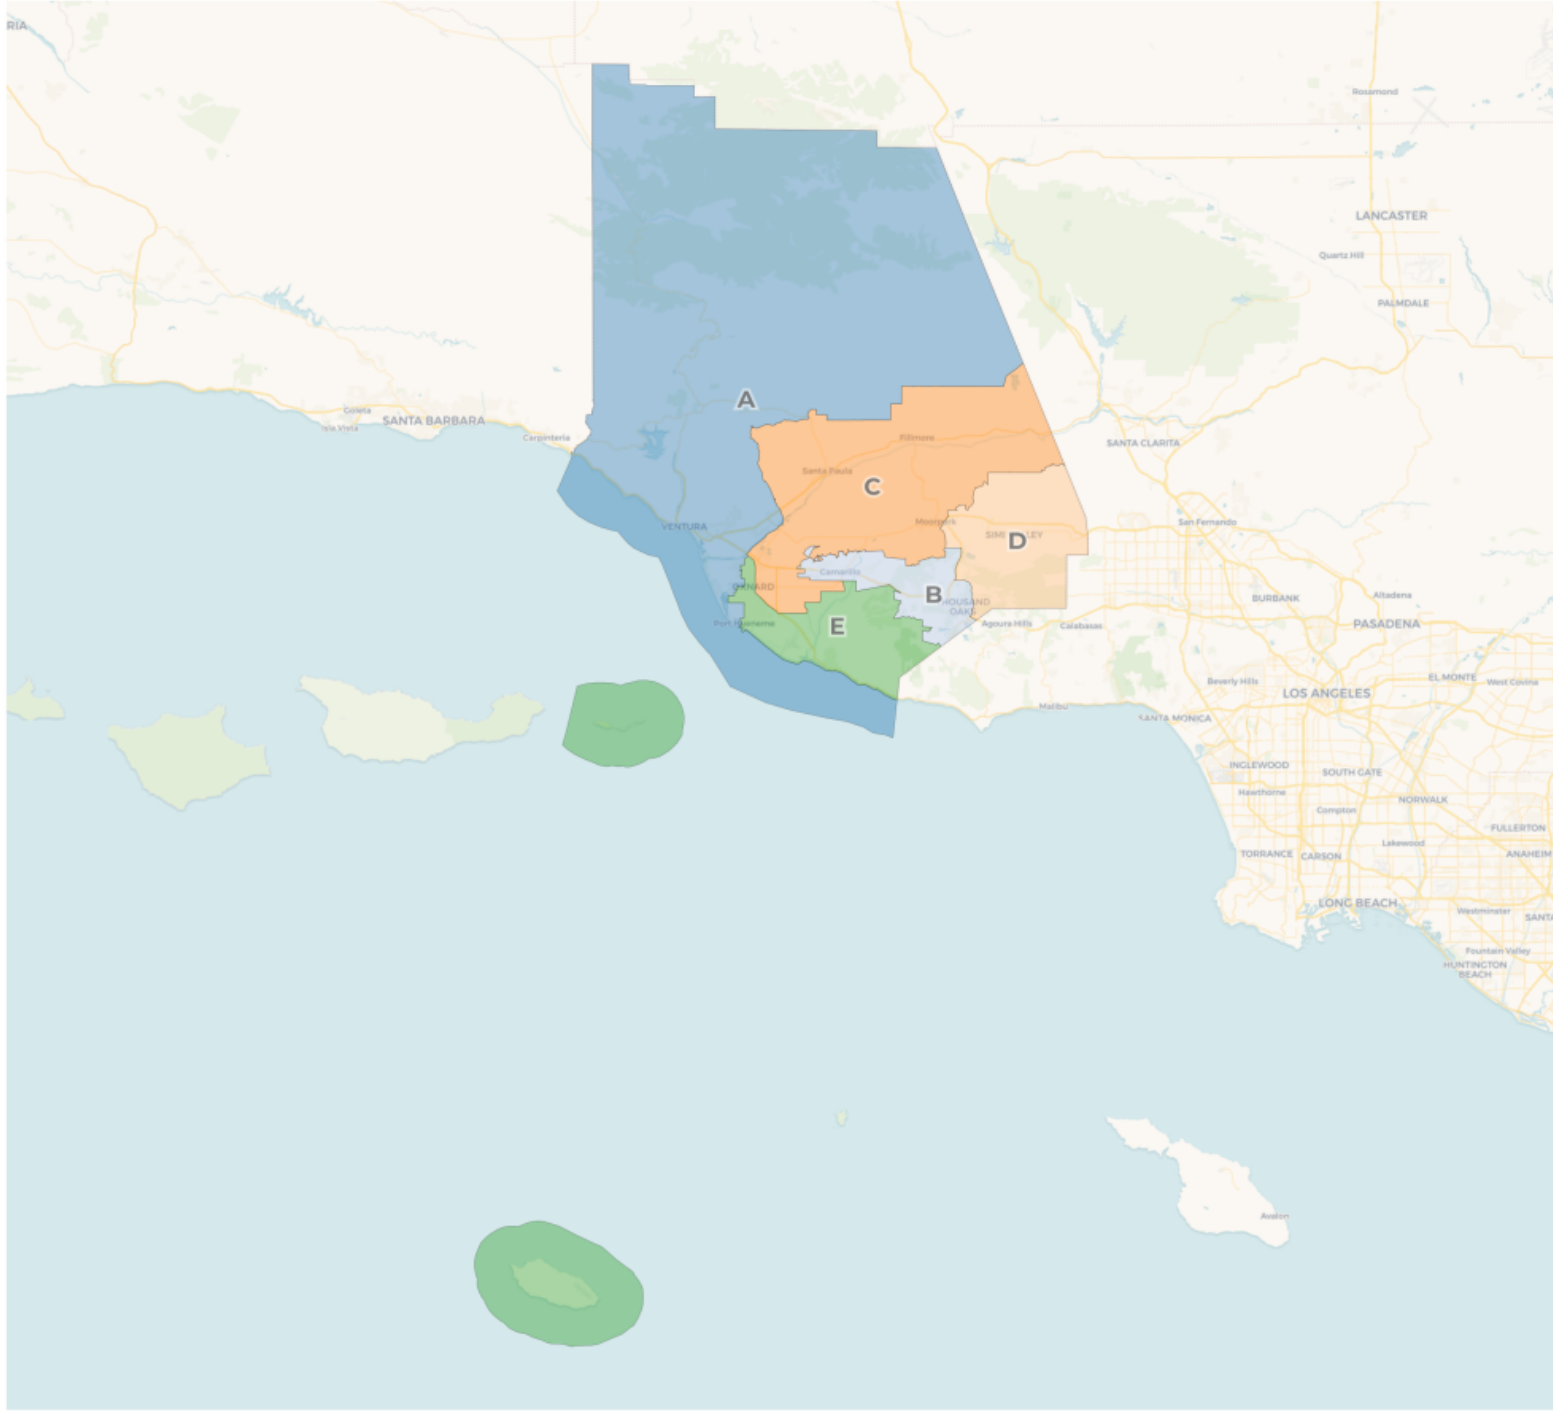

$$\begin{array}{r}
 183,136 \\
 - 153,036 \\
 \hline
 = 30,100
 \end{array}$$

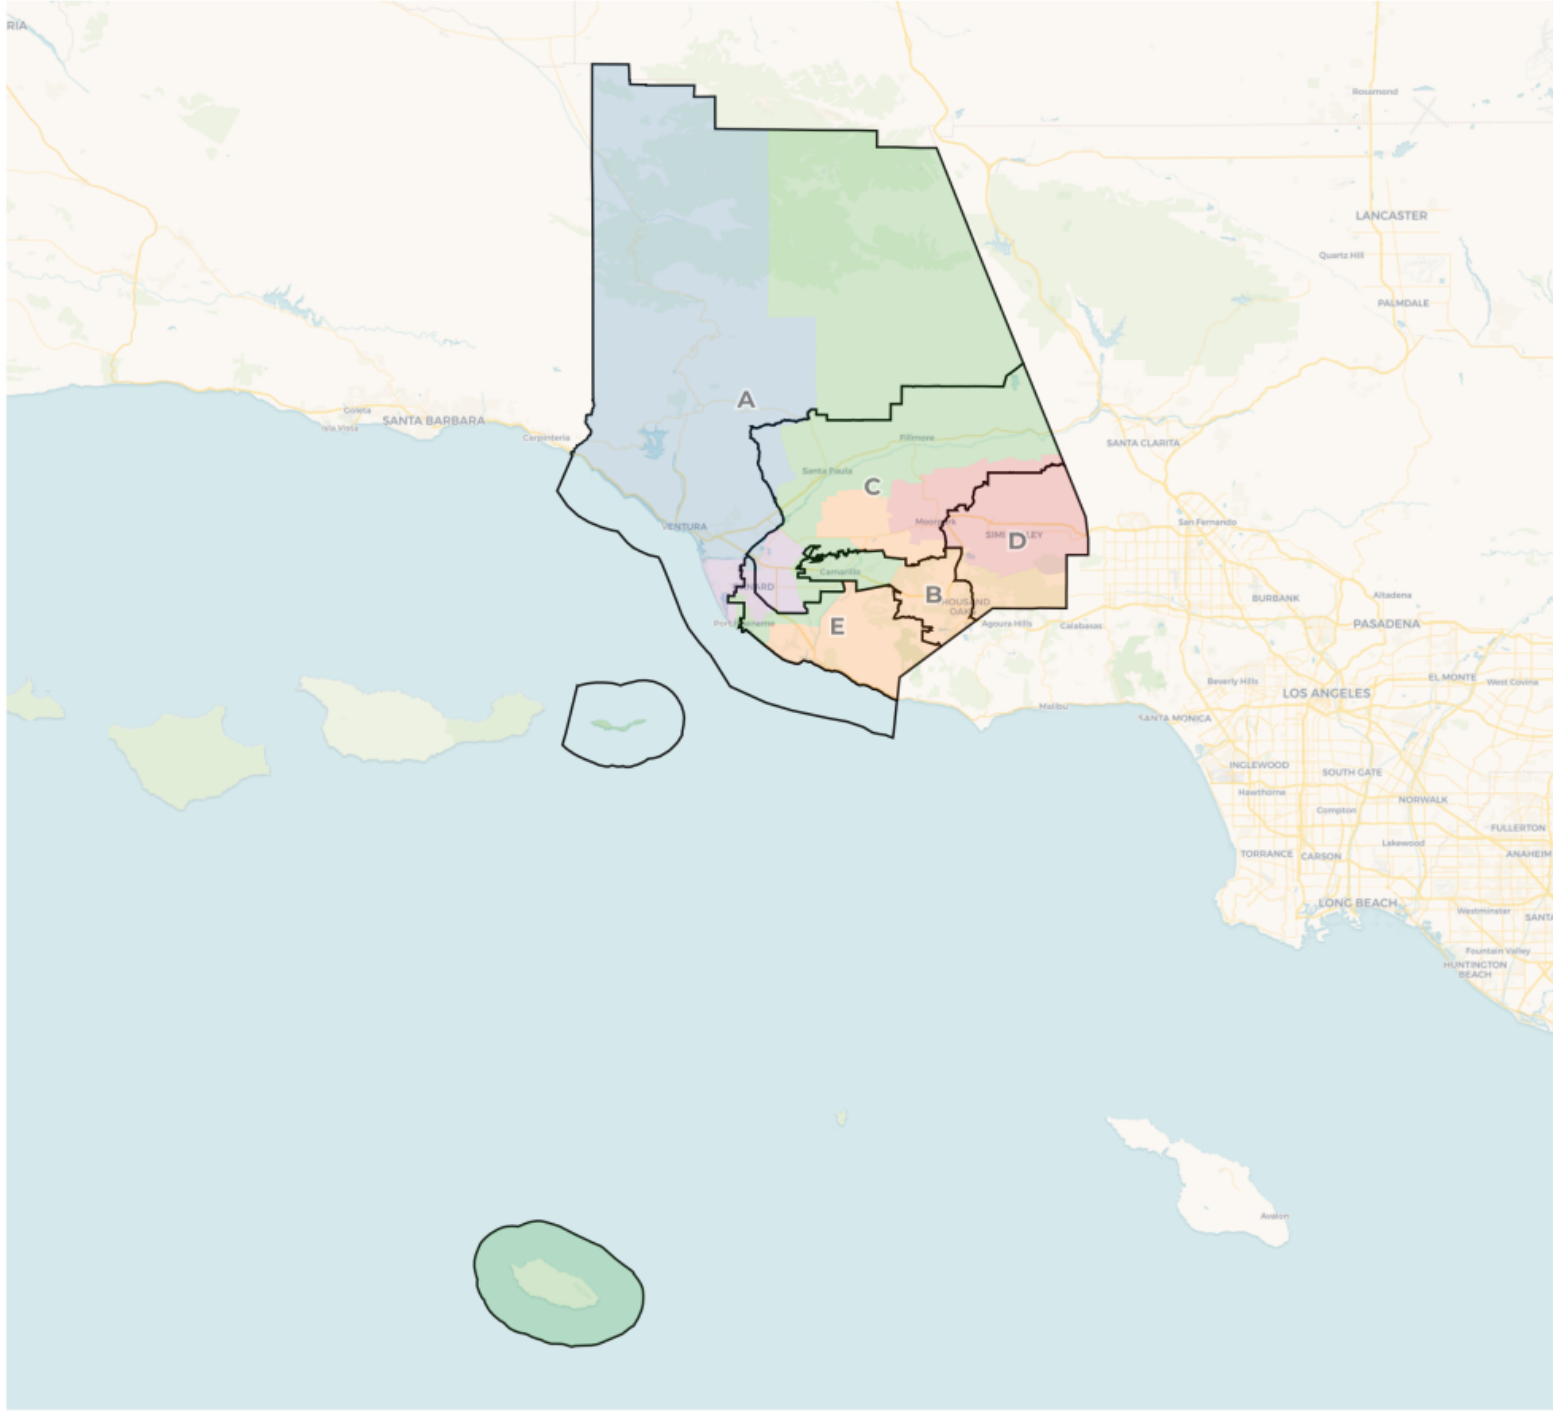

Divide the Total Pop. Deviation by the District Pop. Ideal of 169,078

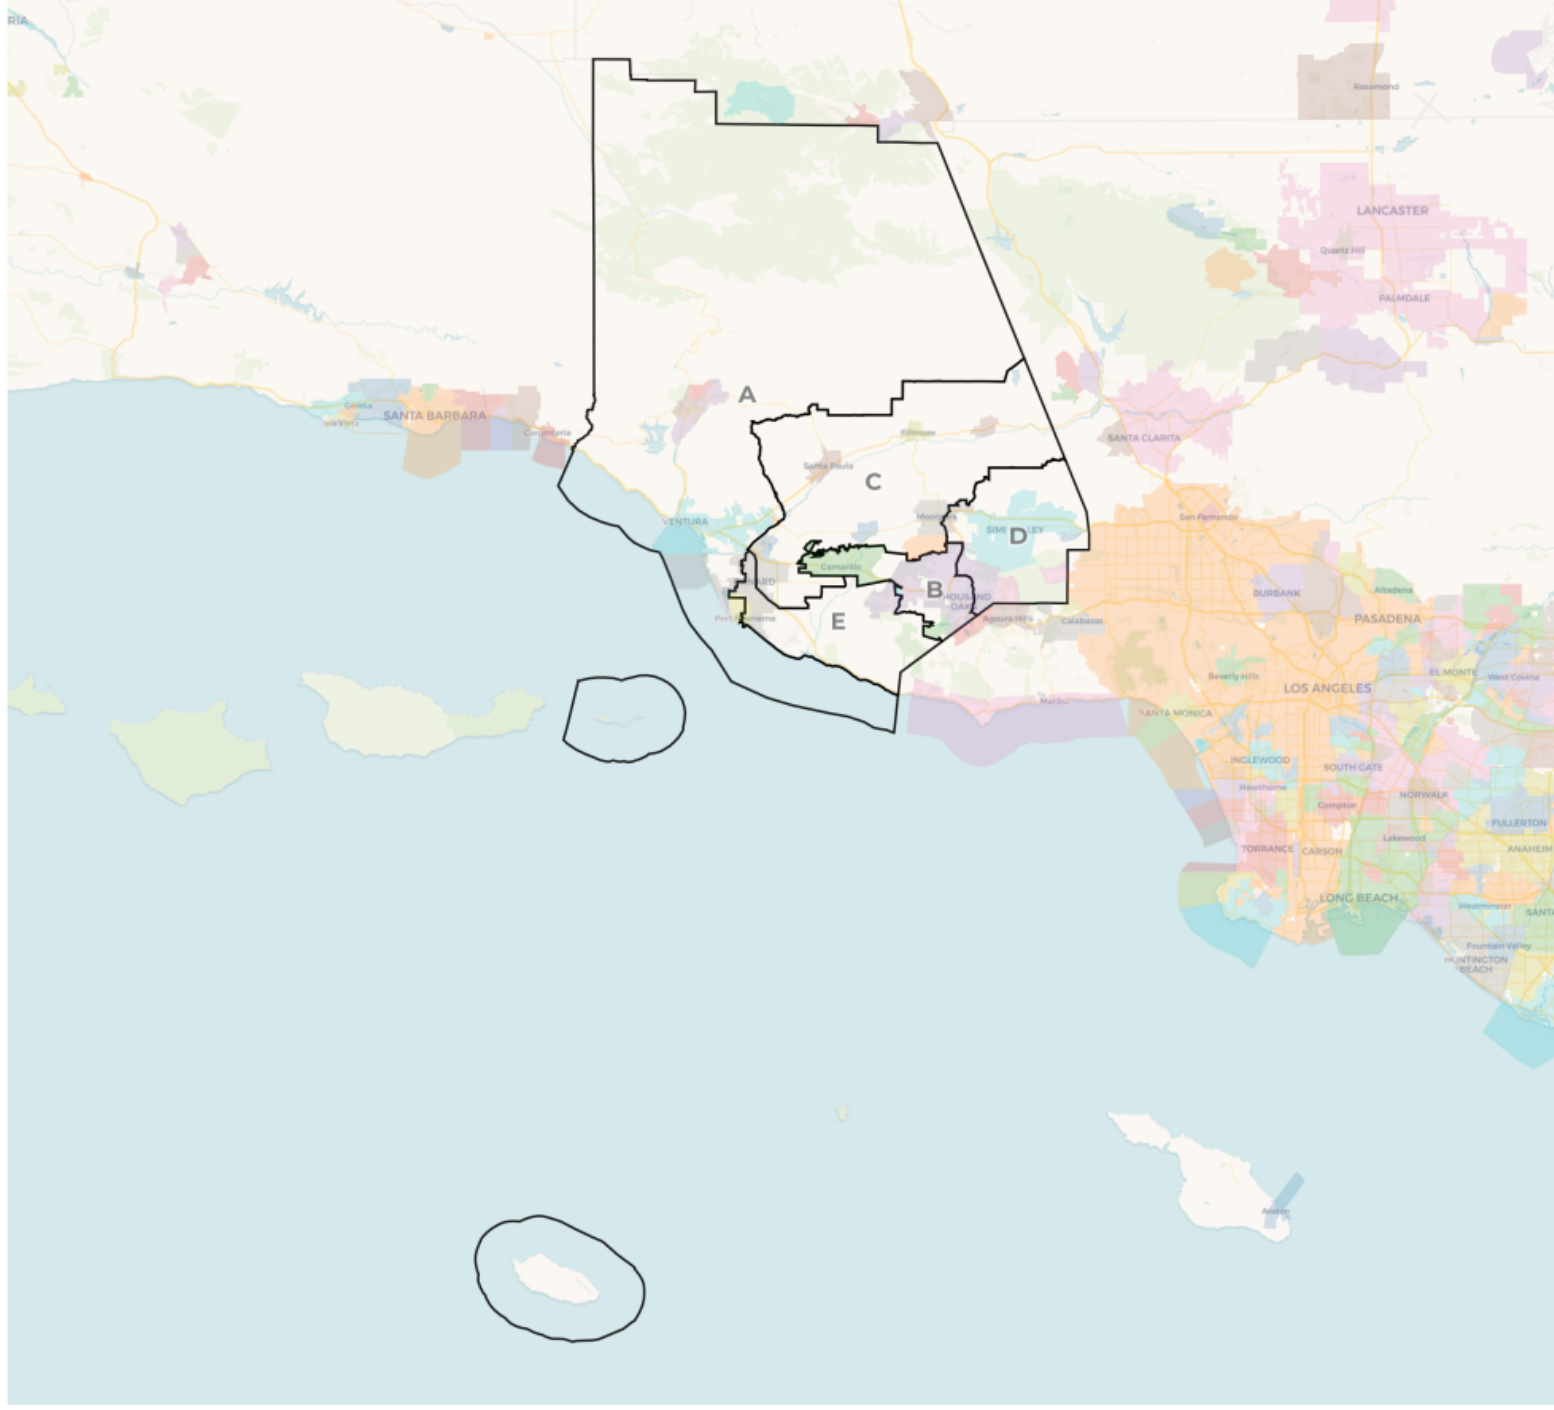

Total Deviation = $30,100 / 169,078$

Total Deviation = 17.8%

What's Next

The Board of Supervisors must **adopt** a final map no later than December 15th.

Final map must be **selected** by November 30th to allow adequate time to prepare final map and resolution.

Next public hearing scheduled for November 16th.

Recommend identifying no more than two preferred plans to be brought back on November 16th for further review and discussion.

On November 16th, either:

- Select a final map and direct staff to prepare map and resolution, or
- Schedule a special meeting later in November to select a final map for preparation.
