Chair Linda Parks and Supervisors-I have been reviewing the maps proposed by the County consultant, cities and other organizations. I reside in unincorporated Ventura County however we are very close to the City limits of Camarillo. With the exception of some maps submitted by the City of Camarillo, our area cannot be clearly determined to be within what proposed District. None of the maps have sufficient detail for the average citizens to review and provided public comment. I understand that precincts are used but as voting citizens, we are entitled to be provided more detail and information in order to provide valuable and detailed public comment.

I respectfully request before you go any further with redistricting maps that significantly more detailed maps with readable streets noted are provided to the general public so we can provide educated information to you. I feel I have been prohibited from providing valuable comment since there is not sufficient detail of streets being provided.

Thank you.
