County of Ventura
NOV 29 2018
Clerk of the Board

Water Bill Account No. 111823-10707
Property Tax Parcel No. 507-0-052-015

To whom it may concern:

I am writing this letter **to oppose the proposed sewer and reclaimed water rate increases.** Many families will be over burdened with these rate increases. It unfairly makes it harder for the people on fixed incomes to make ends meet. Jerry Brown has lied to the citizens of California already. What happened to all those proposals on the voting ballots the last four years about making more water. It appears Jerry Brown continues to lie. He's the one that called for mandatory lower use by 30%. This season there will be a lot of rain fall. Right now the rain for the season is up from last year. Get rid of the high salaries the executives make at the water companies and the high pensions they receive to get water rates down. It was reported in the Ventura County Star a year ago the water rate was increased to pay for one of executives retiring. Can you believe that? **Definitely, no rate increases at this time there's plenty of water!**

Sincerely,

Russell E. De Good (owner)
