

VENTURA COUNTY FILM: A BLOCKBUSTER

"As a Producer, I am always thrilled when a project lands in Ventura County, because I know I can go directly to the Ventura County Film Liaison and get fast, accurate answers to all of my questions."

-Robin Wallace, Producer 101 North Productions

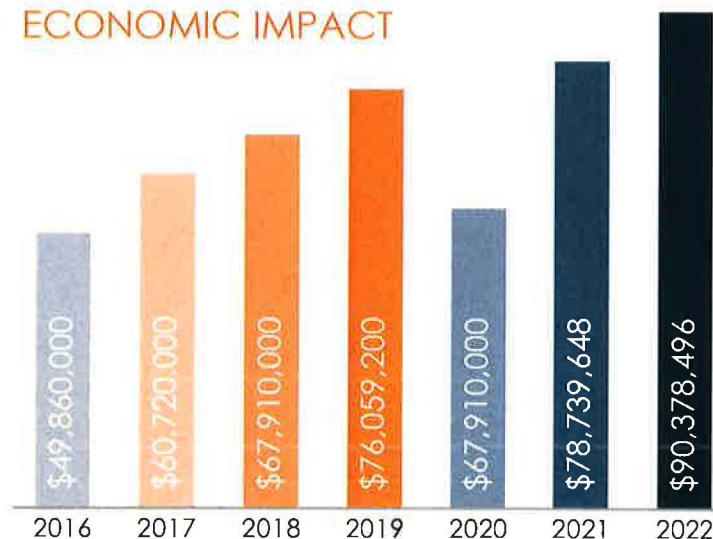

EDC FILM PROGRAM

Since the early 2000's, and reinvigorated in 2013, the Ventura County Film Commission (EDC Film) has been supporting and enhancing film production in Ventura County through collaboration with city, regional and industry partners.

EDC Film provides advising and liaison guidance to industry professionals in the following areas:

- Film locations
- Film permitting
- Pre-and-post production resources
- Talent and crew lodging
- Production, start-up and business consulting

ECONOMIC IMPACT

GROWING THE ECONOMY

By enhancing the filming experience for all parties, EDC Film and the Film Liaison have supported years of regional economic growth and the rebound of filming through the impact of COVID-19.

- Filming creates and sustains at least two additional jobs for every job created in local film activity.
- Production activity benefits more than 3,500 Ventura County trade workers and professionals part of industry guilds and unions who live locally.
- The growth of film production regionally has allowed local film support services to develop with industry need resulting in improved production costs, new employment opportunities and technology transfer to Ventura County.

	2016	2017	2018	2019	2020	2021	2022
PERMITS	980	1,064	1,156	1,260	864	1,455	1,515
FILM DAYS	2,493	3,036	3,622	4,056	3,016	4,199	4,873
