I would like to express my opposition to our county BOS endorsing and distributing these harmful genetic therapies being called vaccines.
It is disturbing that the board would encourage and still promote this program with the ample evidence of harm these injections cause.

Please do NOT approve to fund or use the funds in item #40.
Approving these funds, with the devastating data currently available is sure to be a liability at some point. You cannot say you weren't aware of the data.

Sincerely,
Kim Johnston
