Regarding Agenda Item 40 to be reviewed for approval at the 1/24/23 Board meeting, I would like to express my strong opposition to the continued distribution of what are clearly harmful, and in many cases deadly, generic therapies disguised as “vaccines”. The County should carefully consider its obligation to safeguard the lives of its constituents, and the potential loss of substantial County funds due to legal liabilities, in this manmade healthcare disaster which is unfolding and which is receiving an ever-increasing amount of attention from those who have been adversely affected, and from their families.

The Board should not approve the additional funds and positions in item 40 and should instead return the funds to their source.

Thank you for your consideration.

Andrew Maria  
Ventura County Resident
