Dear Members,

I would like to put it on record and publicly comment that I do not consent to the County's involvement in the CIE program. I believe it is an intrusion of privacy to collect surveillance of residents' personal information. Is this even constitutional? It is quite sinister to collect data, claiming it to be for benevolent reasons. I do not believe this collection of data will be used for the benefit of the residents in the long run and could very well be used to restrict their freedom.

As board members you have an obligation to the oath you made to the residents. Please honor it.

I call on you to reject the use of the vendor PHI and also terminate its participation in the CIE program.

Thank You for Your consideration,

Christine Warren
