#### Purpose

Pursuant to Title 15, California Code of Regulations, Article 2, Section 1313, Subsection (c) "On an annual basis, or as otherwise required by law, each juvenile facility administrator shall obtain a documented inspection and evaluation from the local health officer, inspection in accordance with Health and Safety Code Section 101045."

Per California Health and Safety Code 101045, the county health officer shall annually investigate health and sanitary conditions in every operated detention facility in the county. He or she may make additional investigations of any county jail or other detention facility of the county as he or she determines necessary. He or she shall submit a report to the Board of State and Community Corrections (BSCC), to the person in charge of the detention facility and to the County Board of Supervisors.

#### Instructions

To complete the evaluation, assess each element listed and document the findings on the checklist. Columns in the checklist identify compliance as "Yes," "No" or "N/A" (not applicable). If the evaluator assessing the Environmental Health of the facility "checks" a column to indicate that a facility is either out of compliance with all or part of a regulation or indicates that all or part of a regulation is not applicable, a brief explanation is required in the comments section. This explanation is critical. It assists both the BSCC and facility staff in understanding the rationale for the decision and highlights what needs correction.

Evaluators may elect to assess areas that are not covered by the inspection checklists. If this is done, the additional issues must be clearly delineated on a separate sheet to maintain their distinction from the BSCC Title 15 checklist. For information purposes, this additional sheet should be attached and distributed with the checklist.

Checklists and regulations are available on the BSCC website (<a href="http://www.bscc.ca.gov/s">http://www.bscc.ca.gov/s</a> fsoresources). Please contact the BSCC Field Representative assigned to your county at the number below or through e-mail access on the web site.

#### Purpose

Pursuant to Title 15, California Code of Regulations, Article 2, Section 1313, Subsection (c) "On an annual basis, or as otherwise required by law, each juvenile facility administrator shall obtain a documented inspection and evaluation from the local health officer, inspection in accordance with Health and Safety Code Section 101045."

Per California Health and Safety Code 101045, the county health officer shall annually investigate health and sanitary conditions in every operated detention facility in the county. He or she may make additional investigations of any county jail or other detention facility of the county as he or she determines necessary. He or she shall submit a report to the Board of State and Community Corrections (BSCC), to the person in charge of the detention facility and to the County Board of Supervisors.

#### Instructions

To complete the evaluation, assess each element listed and document the findings on the checklist. Columns in the checklist identify compliance as "Yes," "No" or "N/A" (not applicable). If the evaluator assessing the Environmental Health of the facility "checks" a column to indicate that a facility is either out of compliance with all or part of a regulation or indicates that all or part of a regulation is not applicable, a brief explanation is required in the comments section. This explanation is critical. It assists both the BSCC and facility staff in understanding the rationale for the decision and highlights what needs correction.

Evaluators may elect to assess areas that are not covered by the inspection checklists. If this is done, the additional issues must be clearly delineated on a separate sheet to maintain their distinction from the BSCC Title 15 checklist. For information purposes, this additional sheet should be attached and distributed with the checklist.
